WHEREAS, Fellsmere Water Control District holds an money market account with PNC Bank and would like to open a checking to write checks for general expenses incurred by the District;

Michael Monroe, Jerry R. Tillman, Richard Carnell, Judy Warga.

RESOLVED, that Michael Monroe, Richard Carnell, Jerry R. Tillman and Judy Warga shall be signatories on the checking account.

# Attorneys report:

- Michael updated the Board on the Lawsuit with FDOT. FDOT built the bridge over Main Canal without a permit from FWCD. At this time Michael has other trials scheduled and will schedule the FDOT as soon as possible.
- The County and FWCD extended the Intergovernmental Agreement including additional roads to be graded. These additions will need to be re-negotiated in future years.
- Apportionment of Assessments in the District was discussed at a previous meeting the Superintendent, Engineer and Attorney were tasked to review the assessments. George and Rodney both have reports concerning the apportionment of assessments for the District and the separation line appears to be the Lateral U Canal.
- Michael advised that he had prepared a special resolution for the Property Appraiser and Tax Collector for the Non Ad Valorem Assessment Resolution.

# Engineer's Report:

George spoke about the Engineers Report and stated there was no weather that affected the District this year.

• The city of Fellsmere continues to be aggressive concerning stormwater and has established a Stormwater Utility to aid in funding the projects. The City of Fellsmere completed the Fellsmere Master Stormwater Plan in late 2012. Two of the Master Plan

regional lake systems are currently being implemented. When completed these lakes will give additional storage for FWCD.

- CDBG Phase 6 project: The project was bid and came in over budget, and is currently in a value engineering process with the low bidder. This Project included the paving and drainage improvements along Wyoming and South Carolina Avenues and Hickory and Pine Streets. The CDBG Phase 6 project will have to be re-approved for grant funding with the value engineering changes. Assuming the approval is granted, construction is expected to start during the summer of 2017.
  - George discussed his report concerning the apportionment study as defined in Florida Statute 298.225(8), Apportionment involves a minor insubstantial change to the Plan of Reclamation now the water control plan. There is no change in the flow of the water. No additional improvements such as pump stations, or canals being constructed. Just normal ordinary maintenance.
  - Rodney agreed with George with his findings for the apportionment study.

# ENGINEER'S REPORT FOR THE APPORTIONMENT OF ASSESSMENTS EXECUTIVE SUMMARY OF THE APPORTIONMENT OF ASSESSMENTS

The FWCD has evolved over many years into a Water Control District that has two distinct watershed areas. Lateral U divides the FWCD into the west watershed which is pumped to the SJRWMD Upper St John's Basin and the east watershed which gravity drains either partially or completely into the Indian River Lagoon via the Fellsmere Main Canal. SJRWMD has funded the purchase of land for reservoirs from the Fellsmere Joint Venture, (FJV) and the development costs of converting large tracts of agricultural land lying in the original FWCD to create large reservoirs adjacent to the west watershed area which reservoirs are part of the SJRWMD Upper Basin Project. SJRWMD funded the levees and pump infrastructure to divert all the water from the remaining FWCD lands lying in the west watershed into the Upper Basin Project. FJV is the entity that has funded and will continue to fund the operation and maintenance costs associated with pumped drainage in the west watershed.

Recently, Carter Associates, Inc., (CAI), the FWCD Engineer of Record has been asked by the FWCD Board of Supervisors to prepare an Engineer's Report per Chapter 298.225(8), to review the of existing Water Control Plan improvements to assist the Board in the appropriate assessment rates for the two watershed areas. Chapter 298.54 provides for the process of apportioning the costs on the basis of net assessment of benefits to each watershed. This report is part of a minor, insubstantial change to the Water Control Plan, to address the apportioning of the FWCD operation and maintenance costs. There are no proposed changes to the flow of water at this time. No additional improvements such as pump stations, canals, etc. are proposed. Assuming an addition of Fellsmere Estates LLC to the FWCD, this report simply outlines the cost and benefits to the east and west watersheu areas within the FWCD. The cost of the maintenance of the FWCD works and the benefits to each watershed are presented in the spreadsheet below.

#### Superintendent Report: Apportionment of District land Assessments

Rodney gave a brief report to the Board regarding the historical facts of the District.

In 1911, Fellsmere Farms Land Sales Company attempted to drain 118,000 acres of land, or 184 square miles in the upper basin out one canal to tide through the north fork of the St. Sebastian River. This failed and the Company defaulted in 1918. Fellsmere Water Control District was formed to take over the drainage plan. The Districts Plan of Reclamation reduced the size of the land from 118,000 acres to 50,000 acres or 80 square miles.

Sales of Lands of District and right of ways

\*\*\*\*\* fund now at \$566,857.14

- In November 1985, 6,500 acres was sold by FJV and the FWCD to St. Johns Water Management District (SJRWMD). Today this land is known as the Stick Marsh/Farm 13. It resulted in \$788,750 from right of way sales and was invested.
- 2. In November 1999, 2200 acres inside of District was sold by the Carson Platt Estate to SJRWMD. It resulted in \$157,482.79 from r.o.w.s sales and was invested.

- 3 In March 1999, 1754 acres inside of District was sold by Jack M. Berry, Corp. to SJRMWD. It resulted in \$409,359.94 from r.o.w.s sales that the District invested.
- In June 2002, 10,000 acres inside of District was sold by FJV to SJRWMD. It resulted in \$609,357.00 from r.o.w.s. sales that the District invested.

TOTAL invested \$2,045,950. In 1985 the interest rate was 5% it has declined to .02% today. Various Boards of Supervisors throughout the years felt that the Landowners rate should be supplemented by the investment fund to pass the benefit of land sales to the Landowners.

Due to low interest rates and the loss of nearly 50% (land sold) of the Districts assessment the fund has been depleted by supplementation which resulted in a benefit to landowners by keeping assessments lower. Therefore, in the future, to balance the budget the assessment must be raised without supplementing from the fund. Staff recommends working toward balancing the budget by apportionment assessments and looking at possibility of apportioning assessments based on District activity and expense.

In meetings, during the past 18 months or so, the Board has directed Staff, Engineer and Attorney to analyze the proportional costs and assessments both east and west of Lateral U and changes to the water control plan, if any. Staff determined the water control plan does not need to be significantly amended since there would be no changes and an apportionment approach is a minor, insubstantial amendment.

During the fact finding analysis, along with the completion of the Fellsmere Water Management Area (FWMA), it is now apparent, that the majority of water, if not all of the water, west of Lateral U Canal will be moved west to the FWMA by pumping. The study showed that the District's activities and expenses incurred east of Lateral U is greater than west of Lateral U. The cost west of Lateral U includes pumping all water west to the FWMA by FJV. The District is not involved with the pumping process. The cost of which is approximately \$138,672.00 annually.

The present FWCD assessment rate is based on a budget of \$656,608. Of that number only \$268,845 is generated by assessments based on a per acre or fraction thereof.

Currently and historically, the landowners are subsidized by using the funds from previous right of way land sales to offset the assessment rate and delay any increases in assessment rate. Landowners pay \$10.00 per acre or fraction thereof and the fund subsidizes \$387,763. Rodney went on to explain that there were three budgets and spreadsheets in the meeting packets provided as options. He explained the three different budgets and the amount. At this time, he stated that during the signing of the Resolutions for the year the Board must make a decision regarding the apportioning of assessments so that the budget can be balanced per Florida Statute 189.016(3) as required by the Auditor General of the State of Florida. The fund has now been depleted to a point it can no longer subsidize the landowners as in the past. The assessment rate should be funded 100% by the landowners starting with the 2017-2018 Fiscal Year or if not 100%, much closer to 100%. The proportional rates would be determined by Resolution of the Board of Supervisors.

The Board asked questions concerning Georges report. He explained his spreadsheet in detail as to his apportionment analysis. Jeff asked how much, if any, the District would have to expend from the fund to balance the budget. George pointed out the line item that showed that amount.

Mike asked whether the 1770 + or - acres of Fellsmere Estates LLC Property was included in George's spreadsheet. George replied yes and explained the line item in spreadsheet. Rodney explained that the spreadsheet used was not the spreadsheet completed by the District Engineer. In the Spreadsheet used, the 1770 +- used in the Fellsmere Estates LLC Property was not used in the calculation for the non-ad valorem assessment.

Rodney discussed his report concerning the apportionment study as defined in Florida Statute 298.225(8) and the tax in Florida Statute 298.54. He found that no changes to the Plan of Reclamation, now the Water Control Plan, with the flow of the water would be required. He found that no additional improvements such as pump stations, or canals being constructed. Just normal ordinary maintenance. Therefore, the apportionment of assessments based on the District's activities and incurred expenses would only be a minor, insubstantial amendment.

At this time, the Resolutions were presented for signatures by the Board of Supervisors. The final Resolution to be signed was the Non-ad Valorem Assessment. This was discussed in great length with the Supervisors having many questions for the Attorney, Engineer, and Superintendent. The Board took into consideration the increase of the apportionment assessments to the landowners, but because of the audit and the need to balance the budget the following Non Ad Valorem Assessment was adopted by the Board of Supervisors.

NON AD VALOREM RESOLUTION WHEREAS, BE IT RESOLVED THAT THE BOARD OF SUPERVISORS OF FELLSMERE WATER CONTROL DISTRICT;

#### Resolution

There is hereby levied for the year of 2017-2018, a Non-Ad Valorem Assessment of the rate of \$12.50 per acre against all land in the Fellsmere Water Control District located westerly of Lateral U and County Road 512 and a Non Ad Valorem Assessment of the rate of \$29.00 per acre on all lands located easterly of Lateral U in order to maintain and preserve the ditches, drains and drainage works of this District and to repair and restore the same whenever needed, as well as, for the purpose of defraying the current expenses of this District. The said Non-Ad Valorem shall be equal and uniform in amount upon each acre of land assessed separately westerly of Lateral U/ County Road 512 and separately east of Lateral U/ County Road 512 and separately east of Lateral U/ County Road 512 and separately east of Lateral U/ County Road 512 and the minimum Non-Ad Valorem Assessment shall be not less than a one acre rate established above the minimum Maintenance tax shall apply to any one parcel separately assessed.

BE IT FURTHER RESOLVED, that when said Assessment is so levied or extended and assessment by the Property Appraiser of Indian River County, he shall certify the same to the Tax Collector of Indian River County Florida who is directed to demand and collect the Non-Ad Valorem Assessment as levied and to make return of such tax to the District, as provided by law, and,

BE IT FURTHER RESOLVED THAT, a certified copy of this Resolution shall be furnished to the Property Appraiser of Indian River County, Florida, and to the Tax Collector of Indian River County, Florida.
